

N x 1 High Power Laser Combiner (HPLC Series)

Description

Rev 11

The High Power N x 1 Laser Combiner is designed for combining the power from N units of kW class fiber laser with high efficiency. Available for different fiber types.

Key Features

- High Power Transfer Efficiency
- Custom Configurations Available
- Proprietary Fiber Tapering Technique

Applications

- Multi-Kilowatt Fiber Lasers

Specifications

Parameter	Unit	Value
Product Type ¹	-	3 x 1 or 4 x 1 or 7 x 1
Laser Wavelength Range	nm	1060 - 1080
Fiber Type For Input	-	20/130, NA = 0.08/0.46
Fiber Type For Output	-	100/120/360, NA = 0.22 or 50/70/360, NA = 0.22
Input Power Handling per Port	W	3000
Max. Backward Power Handling ²	W	1000
Min. Power Transfer Efficiency ²	%	97
Max. Beam Parameter Product (BPP)	mm mrad	4
Package Dimensions	mm	205 x 60 x 22
Operating Temperature (Active Cooling Required)	°C	0 to + 65
Storage Temperature	°C	- 40 to + 85

¹If you have special product type requirements, please contact us.

²The power in the core of the fiber.

³Do NOT operate without proper high power termination (QBH cable, for example).
